Description

- **Application:** Lightproof and extremely absorbent fleece for optimal and high water retention and distribution
- **Dimensions:** 220 cm × 100 m
- **Material:** High-capillarity fleece
- **Water storage capacity:** approx. 1 L/m²
- **Weight:** 100 g/m²
- **Packaging unit:** 1 roll

Aquafil is a further development of the standard irrigation mat. It can be laid very neatly, and the high-capillarity fibers ensure that even small unevenness in the surface is overcome and water continues to distribute evenly. This guarantees optimal water supply to your crops at all times.
