Description

- **Application:** Roll screen systems in greenhouses
- **Torque:** 50 Nm
- **Voltage:** 115 V / 60 Hz
- **Speed:** 4,2 rpm
- **Special feature:** Maintenance-free tubular motor with integrated limit switch

The **RB50-4.2-14 tubular motor** is a reliable and maintenance-free drive unit for roll screen systems in greenhouses. It is built into a standard aluminum tube with a diameter of 50 mm and can be fully wound up.

The durable planetary gear ensures high efficiency and precise control. Thanks to the integrated brake, the motor stops smoothly and securely, enhancing the safety and stability of the system.

The limit switch system is easy to adjust and allows for accurate positioning of the roll screen, ensuring optimal system performance.

Product information

Diameter:	50 mm
Revolutions per minute:	4,2
Torque (Nm):	50
Voltage (V):	115

All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
