Overview

Screenprofile I - L=6,40 m - item

Product number: 37000640

PU

Bunch

loose

Description

• Application: Shade cloth transport in lay-flat shading systems

• **Length:** 6.40 m • Material: Aluminum

The Screen profile I - 6.40 m is an aluminum profile used to guide shade cloth in horizontal greenhouse shading systems. It includes a groove for a rubber seal and is suitable for both lay-flat and, in special cases, suspended installations.
