

Overview

Hot-knife 230 V 60 W

Product number: 01100100

Description

- **Application:** Cutting woven and knitted fabrics with cleanly sealed edges
- **Material:** Durable housing built for long-term use
- **Power:** 230 V, 60 W
- **Feature:** Heated cutting tip prevents fabric fraying
- **Compatibility:** Interchangeable hot bits available separately

The **Engel Hot Cutter 230 V 60 W** is the perfect tool for precise cutting of woven and knitted fabrics. The heated tip fuses the edges as it cuts, effectively preventing fraying.

Operating at 230 V and 60 W, this device is built for professional use. A range of compatible cutting tips is available separately, allowing flexible adaptation to various cutting needs.
