Description

- **Product:** Fabric anchor Type I
- **Length:** 25 cm
- **Application area:** Fastening woven fabric on cultivation surfaces
- **Material:** Durable, flexible plastic
- **Function:** Secure hold for the fabric, easy to remove from soil and fabric
- **Advantages:** Reusable, easy to use

The **Fabric anchor Type I, L 25 cm** is a reliable solution for securely fastening woven fabric on cultivation surfaces. Its special design ensures stable fixation and allows for easy removal from both soil and fabric, making it reusable.

Made from durable, flexible plastic, the anchor offers high resilience and long service life. With a length of **25 cm**, it provides a firm grip in the ground and prevents the fabric from shifting.

The packaging unit of **120 pieces** makes it ideal for professional use in nurseries and agricultural operations. An indispensable tool for gardeners and farmers who value a dependable and reusable fastening solution.
