

Overview

PHL white darkening fabric for roll-up - 270 cm

Product number: 19101251

Options

Width (cm):

Description

- **Application:** Roller screens and partitions for greenhouses
- **Material:** Woven fabric with white lamination
- **Width:** 270 cm
- **Shading Rate:** Approx. 100%
- **Light Transmission:** Approx. 0%
- **Energy Savings:** Approx. 60%
- **UV Stability:** 600 kLy
- **Feature:** Double-sided coating for indoor and outdoor use

PHL White Blackout Fabric - 270 cm is a fully opaque, laminated woven fabric developed for use in greenhouse roller screen and partition systems. It effectively blocks all incoming light and reflects solar radiation, supporting ideal growth conditions and energy efficiency.

Thanks to its double-sided coating, the fabric is suitable for both interior and exterior applications and reliably protects sensitive plant areas from light exposure.

Note: Price refers to base material only. Additional costs may apply for fabrication (e.g. cutting, sewing).

Product information

Energy Saving:	60 %
Shading:	100 %
Direct Light transmission:	0 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	600 kLy
Weight (+/- 10%):	209 g/m ²
