## **Overview**

## **U-joint 5/4**"

Product number: 24100150

## **Description**

- Application: Connecting 5/4" drive shaft tubes
- Material: Galvanized steel for high stability and corrosion resistance
- Function: Compensates angular misalignment up to 30°
- Installation: Welded onto the drive shaft tube
- Ridder Item No.: 416725

The Universal Joint 5/4" is designed for connecting 5/4" drive shaft tubes and compensates for angular deviations up to 30°. It is welded directly to the shaft and provides a strong and flexible connection.

The galvanized steel construction offers excellent durability and corrosion protection, making it ideal for long-term use in greenhouse systems.
