Description

- **Application:** Component of the “Permashade” sun protection system
- **Function:** Connector between bracket and louver profile
- **Installation:** Push-fit onto bracket holders
- **Features:**
    - Enables precise alignment of louvers
    - Ensures uniform shading effect

Blade connector is a central connector in the Permashade sun protection system. It mounts directly onto the bracket holders and serves as a carrier profile for the louvers, ensuring consistent and effective shading. Its precise fit and easy handling allow for quick installation and stable integration—ideal for professional greenhouse setups requiring durable and reliable shading solutions.
