Description

An lightproof, but extremely absorbent fleece for optimal water storage and distribution. The Aquafil irrigation mat is a further development of the standard irrigation mats. Aquafil can be laid very neatly. Thanks to its high-capillary fibres the water is evenly distributed even on imperfect surfaces, that provides an

Created at 29.06.2025.

* Our offers are directed exclusively to companies. We do not conclude contracts with consumers. All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
