Description

- **Product:** Lexan film fastener Type 2 – upper part
- **Packaging unit:** 100 pieces
- **Application area:** Fastening bubble wrap to greenhouse walls
- **Function:** Closure and fixation of the film onto the fastener base
- **Special feature:** Barbs for secure hold during installation
- **Advantages:** Wind- and weather-resistant, reusable

The **Lexan film fastener Type 2 - upper part** is an essential component for securely fastening bubble wrap to greenhouse walls. It serves as the closure for the previously mounted fastener base and ensures a stable connection of the film.

Thanks to its locking mechanism, the fastener is particularly wind- and weather-resistant. The integrated barb ensures that the film remains securely in place during installation and does not slip.

After frost periods, the upper part can be easily unscrewed and reused if needed. This allows for flexible adjustment of insulation depending on the season and temperature requirements.

With a packaging unit of **100 pieces**, the upper part is ideal for professional use. A reliable solution for gardeners and farmers who want to insulate their greenhouses efficiently.
