Right-angled

Straight

Description

The support plate works as a bearing for 34 mm drive shafts in greenhouses. It is equipped with straight mounting holes.

Thanks to built -in slide bearing, which is constructed with a centred bronze ring, this support plate is very durable and suitable for applications under heavy weights. In addition this slide bearing functions as a substitute for grease.

Material: Galvanized steel

Mounting height: Lower edge to middle of drive shaft 62 mm

Ridder Art.-Nr.: 503086
