## Description

Thanks to two ball bearings, **the 75 mm pulley** is guided particularly securely on the axle and has a high level of stability under shear loads.

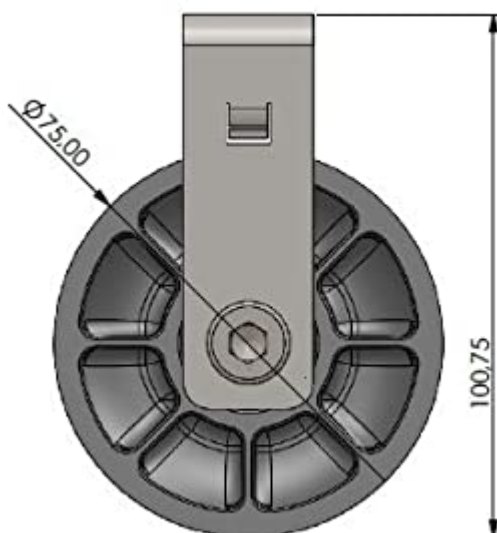

Created at 19.05.2024.

\* Our offers are directed exclusively to companies. We do not conclude contracts with consumers. All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.

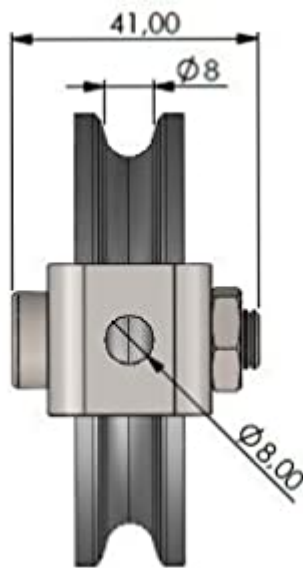

The galvanised steel bracket can be attached to your construction with an **M8 screw**. The retaining bracket can also be detached from the pulley to make installation **as easy as possible**, even in installation situations that are difficult to access.
