• Application area: Securing double film to aluminum film clamping profiles

• Material: High-quality PVC for long-term use

• Length: 2 m

• Design: Specifically developed for double film

• Packaging unit: 100 pieces

• Special feature: Protects both film and profile during installation and removal

The **PVC clamping strip FN 18** is specially designed for securely fastening double film to aluminum film clamping profiles. Its robust construction ensures a reliable hold while protecting the materials during installation and removal.

Thanks to its high-quality PVC design, it offers long service life and excellent durability. With a length of 2 m and a packaging unit of 100 pieces, this clamping strip is ideal for professional greenhouse construction applications.
