

Overview

EcoScreen ES10 - 3,25 m

Product number: 19001032

Options

Width (cm):

 325 430 530

Description

- **Application:** Cost-effective closed knitted fabric for laid and suspended shading systems
- **Material:** Transparent film yarns for light transmission and airflow
- **Width:** 335 cm
- **Feature:** Acrylic threads support improved internal humidity control

EcoScreen ES10 - 335 cm is a lightweight, closed knitted fabric designed for daytime shading in greenhouses. It supports energy-efficient operation during cooler periods by remaining deployed and reducing heat loss through the greenhouse cover.

The transparent structure promotes daylight entry while regulating ambient moisture through integrated acrylic fibers. It's a practical, affordable choice for systems requiring horizontal or overhead shading coverage.

Note: Price applies to raw fabric only. Optional finishing or tailoring services may result in additional costs.

Product information

Energy Saving:	48 %
Shading:	21 %
Direct Light transmission:	79 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	5 years (climate: Central Europe)
Weight (+/- 10%):	83 g/m ²
