Description

- **Application area:** Component of the 19 mm aluminum clamping set
- **Material:** Aluminum for a stable and durable connection
- **Special feature:** Forms the connection between push rod and aluminum pipe in combination with table clamps

The **Alu-clamp /19 mm upper part** is an essential component of the **19 mm aluminum clamping set**. It is used in push rod drives and, in combination with table clamps, forms the connection between the push rod and the aluminum pipe.

Thanks to its **high-quality aluminum construction**, it provides a reliable and long-lasting fastening solution for shading systems.
