• Feature: Integrated plastic rib for fabric alignment

• Packaging Unit: 100 pcs

S-Hook Type 3 - UV-stabilized is specifically designed for attaching fabric to Inox wires in suspended greenhouse installations. Its robust UV-stabilized plastic body ensures long-lasting resistance against environmental exposure and reliable performance.

Particularly suitable for thin mesh fabrics, the S-Hook features a molded-in plastic rib that acts as a fabric stop, helping maintain proper positioning and preventing displacement during operation.
