## Description

- **Application:** Guide rail for motor mount and counterweight in Tower Roller Plus systems
- **Length:** 4.00 m
- **Material:** Anodized aluminum
- **Features:** Integrated slot for plastic safety cover - quick installation
- **Function:** Stabilizes and guides the motor console and counterweight

The **Tower Roller Plus Guide Rail - 4.00 m** is a structural component of the Tower Roller Plus drive system. It guides the motor console and counterweight, and includes a slot for a plastic cover to reduce injury risk. Built from anodized aluminum for strength and corrosion resistance.
